State Promises To Keep Shortcut To Lake Tahoe Open

There will be a minimum of delays and for most part traffic will be kept flowing, during the construction of the realignment and resurfacing of the last section of the Brockway shortcut this spring.

This promise was made by E. L. Miller of the division of highways at a meeting of the Lake Tahoe Sierra Chamber of Commerce at Kings Beach last Friday. The meeting was attended by Richard Higgins, president, and N. F. Dolley, manager, of the Truckee Donner Chamber of Commerce which last week adopted a resolution supporting the Tahoe chamber's demand that the highway be kept open this summer.

Others present at the meeting were D. E. McCollum, also of the division of highways; H. D. Carder, representing the Madonna Construction Company; Fred Schultz, manager of the Tahoe chamber; Selby Calkins, Tahoe chamber president; Thomas L. James, chairman of the chamber's highway committee; County Supervisor William Briner; W. E. Gray and Robert Daneri.

Contracts will be let and work started as soon as possible, the civic leaders were told. This may be late in April and it is expected that the project will require approximately 30 working days to complete, bringing the conclusion in the later part of June.

It was explained that last year's closure of the shortcut and the work on State Route 89 had created a terrific hardship on the businesses at North Tahoe and Truckee and that the region could not financially stand another such year.

The Tahoe and Truckee chambers are working hand in hand in the stand to see to it that financial disaster does not result from these highway projects.

Another matter taken up was the directional signs along the freeway which do not clearly indicate routes to North Tahoe and which are at times misleading to motorists. No action was taken on this item.

Details Revealed For March Derby

Details of the Tahoe Sierra Dog Derby, sponsored by the Lake Tahoe Sierra Chamber of Commerce were announced this week by Lloyd Hall, chairman of the derby which will be staged at Kings Beach during the weekend March 9, 10 and 11.

An added attraction to the derby was announced by Hall. Elementary students of the Tahoe Truckee area will have their own races Saturday afternoon to test their prowess with sled driving. Any breed and any type of sled may be entered by these youngsters and they will drive only one dog per sled. This new and exclusive feature of the derby will earn prizes for the fastest, slowest, laziest, slickest, highest and smallest dogs.

Dog sled events will start at 9 a.m. March 10 and the two-day celebration will be concluded Sunday afternoon, March 11. Mushers will be welcomed Friday night at a sponsor's dinner.

Names of contestants entered include Lloyd Van Sickle of Truckee, Gary Gunkel, a home town driver and Bob English of Truckee. Other entries are expected from all over the west including Alaska.

Decision Soon On Emerald Bay Road To Be Announced

Highway Commission Chairman Robert B. Bradford has assured Don Huff, a Tahoe resort owner, that the selection of a new routing for State Route 89 around Emerald Bay is moving ahead as rapidly as possible.

Huff appeared at a commission hearing in the Public Works Building to urge action on the controversial routing.

"I don't represent any group favoring the high level or the low level routing," Huff stated. "But as a citizen and property owner I feel I have the right to urge action to get an all weather, year around road built."

State Highway Engineer J. C. Womack told Huff his office is working closely with the division of beaches and parks.

"But I just can't say when we'll be ready to make a recommendation to the commission," Womack stated.

"We want to have all factors affecting the route covered before we present it to the commission. We don't want to overlook anything or leave any questions.

Bradford added there is a possibility the commission will want to call another public hearing on the matter before reaching a decision. A district hearing was held last October at Stateline.

The commission will make the final decision on whether to adopt a new high level routing which generally would follow the present highway or a low level routing which would cut through D. L. Bliss and Emerald Bay State Parks with a bridge across the mouth of Emerald Bay.

PLACER CHAMBER IN FAVOR OF LOOP ROAD

The Placer County Chamber of Commerce has endorsed a county road improvement project which would provide a scenic loop through a vast undeveloped back country area.

It would tie in with Highway 40 at Auburn and end at Soda Springs. It is designed to attract tourist travel and provide access to recreational areas and timber.

The cost of the 60-mile loop over the Baker Ranch-Soda Springs road through French Meadows and the historic Mother Lode country was not estimated but it was proposed that the loop could be turned over to the state highway system as an alternate to bypass Highway 40 points such as Emigrant Gap and Yuba Gap.

In other action, the chamber accepted the resignation of Harry Stubley of Lake Tahoe, a ten year director of the chamber.

Candidates To Be Selected To Serve On New District

A number of potential candidates for the governing board of the proposed Truckee-Donner Recreation and Park District, embracing the whole of the fifth supervisorial district of Nevada County, has been enlisted by the committee from the Truckee Donner Chamber of Commerce, sponsor of the program.

The five directors will be chosen by the voters at the election March 13 when it will be determined if the district shall be formed. All candidates must file nomination petitions prior to 20 days before the date of the election, County Clerk John T. Trauner advises.

The official notice of election, giving the polling places, election officers and other details can be found on another page of the Sierra Sun today.

In the meantime, the committee from the chamber comprising Fosten Wilson, Dr. Henry Tapia and Ivan Tofft, is assembling information to answer questions pertaining to the district and will arrange to have outside speakers here to provide a clear picture of what can be expected when and if the district is formed.

It has been pointed out by Supervisor H. G. Loehr, who spearheaded the program through the county level, that great benefits can come to all parts of the district through the organization. He cited the need for camp grounds, playgrounds, boat launching facilities, beaches, a baseball park and scores of other facilities which can be provided only through coordinated effort.

It was also stressed that by spreading the cost for these facilities over the entire fifth district, with an assessed valuation of something over $7,000,000, a low tax rate could be maintained and the cost to the individual would be small.

There are funds available for the establishment, operation and maintenance of the district from the state, county and federal governments, Loehr declared, but the only way to share in this is to organize and form a political entity, thus providing a means of applying for the funds.

While the maximum tax rate for such a district is 50 cents per $100 assessed valuation, it is the opinion of the committee and other officials that the rate will not exceed 25 cents and may be even lower. At 25 cents, a total of $17,500 a year would be realized, it was pointed out by the committee.

Work Extended As More Money For Airport Allocated

Included in the allocations was $73,990 for the Truckee Tahoe airport.

Director Zeph Rose said this money will be used to extend the present landing strip, now under construction, another 1000 feet and widen it 40 feet to give the local field a 6000-foot runway, 100 feet wide. This, Rose declared will provide for all types of planes, with the exception of jets and give Truckee and North Lake Tahoe one of the best landing fields in the region.

There is still some work to be done with the original contract which went to Carl J. Woods of Yuba City and which was stopped because of weather and snow conditions several weeks ago.

The next step will be done under a new contract to be awarded as soon as the financing is completed.

CII OFFICIAL SPEAKS BEFORE TAHOE CLUB

TAHOE CITY— Earl Simmons, one of 450 bureau of criminal identification agents at Sacramento told Rotarians and guests at a recent club dinner meeting at Tahoe Inn how records are kept to identify violators of the law who are not apprehended at the scene of the crime.

He said that the first office of criminal identification was at San Quenton Prison in 1905 where by 1917 the volume of business became so great that the office was moved to Sacramento where there are now five and one half million cases recorded with 115 different classifications and 150 more cases per month are being received.

Simmons said classifications are made according to the method of operation and many classifications are without finger prints until the culprit is finally apprehended. He said that 85 per cent of cases on record are real criminals and he told of bunco games common in large cities.

Asked who without a criminal record is required to be finger printed, the speaker replied, the most frequent are drunken drivers but automobile dealers, fire arm purchasers and school teachers are included according to law.

Harvey Hopkins introduced the speaker. Gordon Moyer presided at the meeting wth C. W. Vernon, club information committee.

COUNTY GETS SHARE OF HIGHWAY USE TAX

SACRAMENTO — (CNS) — The January split of highway users taxes included $27,178 for Nevada county, State Controller Alan Cranston reported today.

The county's portion came from a total of $31,751,162 apportioned to counties, cities and state highway building fund. This was up 6 per cent from the same period of a year ago.

Of the total, $20,987,293 went to the state highway fund; $7,749,973 to the counties, and $3,013,896 to the cities.

The total distribution was made up of $28,933,402 from the gasoline tax, $1,871,486 from the diesel fuel tax, $944,948 from the motor vehicle transportation tax fund, and the balance from miscellaneous sources.

PLACER BOARD WILL OPPOSE DISTRICTING

AUBURN— The county supervisors have taken strong exception to Assembly Bill 2100, which proposes a plan for redistricting counties. The supervisors say the proposed new political districts do not take Placer County's unusual problems into account.

A spokesman said the plan would create one district which would contain 70 per cent of the county's area but only 9,000 of its total 60,000 population. In addition, the district would have 45 per cent of the total road mileage, 41 per cent of the parcels of land and 39 per cent of the assessed valuation.

NEW TAHOE DISTRICT ESTABLISHED IN MEET

AUBURN— A new Lake Tahoe supervisorial district has been set up in a change of boundaries by the Placer County Board of Supervisors.

The new district, ranging from the Nevada State line on the north and Chambers Lodge on the south of the lake frontage, combines portions of Districts 4 and 5.

The western boundary of the district begins near Kingvale and follows a southerly line near the crest of the summit of the Sierra.

In the change of boundaries, the new District 4 will include the area west to the present District 3 boundary east of Auburn, placing Foresthill and Colfax in the same district. The change, first major alteration in recent years, will become effective in 1965.

Supervisors indicated the change was made to consolidate the Lake Tahoe area and eliminate a transportation problem in servicing the districts.

The supervisors also announced a 10 man advisory committee will be appointed to study any other redistricting possibilities. The committee will be composed of two members from each supervisorial district.

MORE NEW HOMES AT INCLINE ARE STARTED

INCLINE VILLAGE— Plans for the construction of more new homes at Incline Village were disclosed with the purchase of ten homesites by Davis W. Kindred of Kings Beach, from Crystal Bay Development Co.

All the homesites are in the Mill Creek Estates section of Incline Village, the announcement said. Kindred will start construction immediately on the first three homes and expects to complete all ten for re-sale during early spring and summer of this year.

Other companies or individual builders with new residences under construction or ready for early spring starts include Incline Investments, Inc., with five already completed and five more to start; Richard W. Porter with one under construction and ten more scheduled; Galaxy Homes, Inc., of Sacramento; Incline Construction Co., of Crystal Bay; McDonald-Ekins of Reno; Francis Gurney, E. E. Thompson, Jr., William Malley and Raymond H. Ehlers.

The Island of Tasmania, smallest state in the Commonwealth of Australia, was first sighted in 1642 by Abel Tasman.

NEW FIRE TRUCK IS ORDERED AT LAKE

CRYSTAL BAY— Fire Chief Floyd L. Frakes has announced that a new 1,250-gallon pumper, valued at $35,000 will be delivered in February to the Crystal Bay Fire Department.

The equipment will be housed in the new fire station behind the North Shore Club.

Frakes, from Van Nuys, replaces Doug Ingram as fire chief. The latter resigned December 29. The new chief will soon be joined by his wife and son.

INTEREST RATES TO VETERANS TO DROP UNDER STATE PLAN

SACRAMENTO — (CNS)—Some 120,000 California veterans will get a reduction in the interest rates they are paying on farms and homes financed under the state's Cal-Vet loan program, it was revealed today.

Joseph M. Farber, state director of veterans affairs, said the veterans board will be asked to reduce the interest rate from the present 4 per cent to 3¾ per cent at its September meeting — the annual meeting at which interest rates on the Cal-Vet loans are discussed.

Farber confirmed the possibility of the interest reduction following a report issued through Governor Edmund G. Brown's office that the Cal-Vet program "has never been in a sounder financial and administrative position than it is now."

In addition, Farber told Brown, the Cal-Vet program probably will need only a $300 million bond issue on the ballot in November of this year, rather than the $400 million that had been expected. A $400 million bond issue was approved by the voters in November, 1960, and $160 million of these bonds remain unsold.

Farber said the department had built up a reserve fund of $30 million "through savings, wise loan placements, and sale of bonds at low interest rates."

However, the department of veterans affairs said that, in addition to the savings, one of the main reasons for the lower bond requirements was that the demand for the loans has been decreasing. A backlog of 18,000 loan applications which had existed in 1959 has been eliminated entirely.

Farber reported also he has saved $1 million on insurance premiums for the farms and homes, $600,000 in operating costs and another $900,000 through elimination of 124 unnecessary positions since 1959.

NEW BOOKLET GIVES SBA ADVISE TO MILLS

A new publication describing the services available from the Small Business Administration to small firms in the forest products industries is now available from the Agency's San Francisco office, located at 525 Market Street, SBA Regional Director Edward L. Turkington for this area, announced.

The booklet, "SBA SERVICES FOR THE FOREST PRODUCTS INDUSTRIES," explains the many ways in which the SBA can assist small loggers, sawmills, planing mills, plywood and veneer plants, wood products manufacturers and distributors, lumber yards, and other small firms in the forest industries.

SCHOOL ENROLLMENT IN COUNTY GAINING

SACRAMENTO — (CNS) — Enrollment in Nevada county schools climbed to 4163 during the current semester, the state department of education reported today.

The county's enrollment gain of 151 students from a year ago amounted to a 3.8 per cent increase, as compared to the statewide increase of 5.7 per cent.

All but five of the state's 58 counties showed enrollment increases, ranging as high as the 33.3 per cent gain in tiny Alpine county, where enrollment jumped from 66 in 1960 to 88 in 1961.

30 PER CENT GAIN IN TRAVEL IS REPORTED

SACRAMENTO — (CNS) — Passengers in vehicles passing California's border checking stations showed about a 30 per cent increase in December, as compared to December, 1960, with most of the increase occurring in California-registered vehicles.

During the month, 1,305,099 persons in 281,404 California vehicles, 186,022 out-of-state cars and 32,815 buses passed the stations. This compared to 1,022,050 persons in 180,413 California cars, 176,997 out-of-state cars and 31,777 buses in December, 1960.

DONNER DOINGS

By VIRGINIA O'BEAR

Donner Lake is just beautiful this time of year with its coat of ice. It is very dangerous though and is thin in some places so we should all warn our children of the dangers. Many tourists were out on it over the weekend and I was afraid to watch as they were in large groups playing on the ice. If it had broken through, they wouldn't have had a chance. It is a natural instinct to try it out, I suppose. Our children did too, until they got the word!

* * *

Mr. and Mrs. E. M. Baldwin and two daughters of Los Altos spent the weekend at Donner Lake and had a wonderful time at Squaw Valley and Donner Summit. It was their first visit at Donner and all had a wonderful time.

* * *

Mr. and Mrs. Klaus Dehlinger and family of Berkeley spent three days at Donner recently skiing and enjoying the snow. They plan another trip soon since the children had such a good time and they had a chance to relax and get away from it all.

The board of directors for the Truckee Donner Horseman Association will meet this Friday night with their attorney for the purpose of incorporating. This will be to the advantage of the organization with many benefits to be derived from it. Many plans are in store for the betterment of this group with the main activity being the celebration of the Donner Museum opening, this year. Many groups from all over California and Arizona have written for information about joining the celebration at that time. Spokesman Jim Sampson said there will be a meeting soon for the members of the association and anyone else wishing to join. Time and place to be announced soon.

* * *

The Truckee Rotary Club submitted plans to the school board of directors for approval of shelters for school children. The directors will meet next Tuesday night and the results will be obtained from John Corbin next Wednesday morning. The Rotary is doing a wonderful thing in providing these shelters for children who have to wait in the cold along the highways. If approved by the board, the shelters will be ready very soon in places where large groups of children wait, and where it is safe.

You Donner Lake residents who are still interested in getting a post office with a Donner Lake, California postmark can help things along by signing the petition going around. We have a very good chance of getting a contract station which is more or less a sub station but we have to get busy! In a few more years we will have a county road at Donner and it might be a little rough during the winter to get into Truckee every day for the mail which is very important to the business people. Now I know a lot of you will want it at the east end and some will want it at the west end and some want a post office in between but . . . . does it really matter? As long as we have a Donner Lake postmark, we can snow shoe to it if we have too! We already have a volunteer who will have some local Donner builders construct a modern little new place which would be an asset to any community. We have a good chance now after working on this for three years and most of us think we are ready for a post mark at Donner Lake.

Don't forget to vote at the Donner firehouse on February 13th in the evening between 7 and 9. The people here have a chance to pick three new officers for the Fire Department. Coffee will be served by the auxiliary and all firemen, auxiliary members and contributing residents to the department are invited to vote!

WHY SOME PRESCRIPTIONS CANNOT BE REFILLED

A prescription drug is generally a dangerous drug. That is why it is required to be sold only on prescription in the first place. True, the danger may be an indirect one; e.g., a danger in the sense that the disease itself may get out of hand—unless the use of the drug is supervised closely by the physician. But many of our most valuable life-saving new drugs can be very dangerous if misused or if taken for too long a time.

Here are some of the things that could happen if the pharmacist should refill a prescription when the drug should be changed or stopped altogether:

- First — Some drugs are addictive or habit-forming; or, continued use may lead at least to a form of physical or psychological dependence. If continued treatment is in fact necessary, the doctor may want to switch to a different drug to avoid this.
- Second — Some drugs lose their effectiveness if they do not work promptly; some infections become resistant to the drug, and it is important that the treatment be changed immediately to keep the infection from getting out of hand. Continued use of the first drug could be extremely serious.
- Third — Prolonged use of some drugs may cause damage to the blood cells or other body organs.
- Fourth — Patients sometimes decide that they or some member of the family again has the same illness for which the drug was originally prescribed. They may conclude that the same drug as before should obviously be used, and ask the pharmacist for a refill.

Such self-diagnosis and self-prescribing can be exceedingly dangerous. The illness may only appear to be the same, but actually be very different. Even if it is the same illness, the drug of choice may vary with the individual and the circumstances — age, weight, sex, previous medical history, drugs previously used, and many other things.

And there are other reasons.

These are decisions for the doctor — based on his knowledge.

PHARMACIST'S PROFESSIONAL TRAINING

The community pharmacist, aware of these facts, is able to explain to the patient the "whys" of refusal to refill a prescription without the doctor's permissioin.

All of this the pharmacist knows and does as a matter of his professional training.

But to back him up in the matter, the law — the Federal Food, Drug and Cosmetic Act — prohibits the refilling of many prescriptions, except as specifically authorized by the doctor. An unauthorized refill is just as much a violation as selling the drug without a prescription in the first place. It is like trying to cash the same check twice.

So, the final answer to the question, which is the title of this article, is —

The law prohibits unauthorized prescription refills!

This law is for the guidance of the pharmacist in carrying out his professional duty to protect the patient.
